Hello there, our dream is to help you make great happen.

Grow your skills in the Horticulture industry

Gaining a Certificate III in Horticulture will provide you with a trade level qualification. At this level students will focus on developing skills required for the trades of Landscaping, Parks & Gardens and Nursery.

Interested in a challenge? Could you achieve two or more qualifications in one year?

Explore the option of achieving a dual qualification through combining the Certificate III in Horticulture and the Certificate III in Conservation and Land Management.

**Outcome**

AHC30710 Certificate III in Horticulture.

On completion of Certificate III Horticulture, you may continue your study by enrolling in Diploma of Horticulture; or the Diploma of Conservation and Land Management if the dual program was completed. Horticulture careers are available in the nursery, horticultural crops, parks & gardens, landscaping, garden maintenance industries. Other jobs include self-employed gardeners or work as ground staff with schools, resorts or councils. Career opportunities in Conservation & Land Management are available in natural area restoration and weed management with organisations such as Conservation Volunteers Australia, Land Care, Local Government, parks and grounds upkeep, main road maintenance crews, Indigenous Park Ranger groups and private re-vegetation contractors.

**Units**

Students need to successfully complete 16 units to gain the qualification; 5 core and 11 elective units. Elective units will be specified for the students depending on the location they are studying.
