**Overview**

Keep you and your colleagues safe

The outcome of this program will be to train students in the requirements of the standard in-service safety inspection, testing and tagging of electrical equipment in accordance with the Electrical Safety Regulation 2002. This program enables students to conduct procedures for the safety inspection and testing of single and 3-phase/multiphase electrical equipment, (other than fixed wired equipment) which is in-service or available for hire or resale and is designed for connection by a flexible cord and plug to low voltage supply. It applies also to extension...more online
